DuraLife's PolyPro Advantage

DuraLife's Unique Polypropylene & Hardwood Composite Outperforms Other Composite & PVC Decking Products.

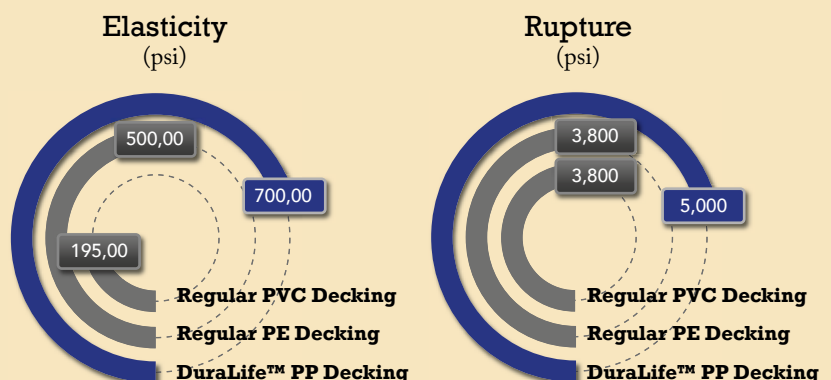

- ✓ **Unmatched Strength**
DuraLife® decking minimizes sagging & flex between joists; improves overall aesthetics and structural integrity.
- ✓ **Safe & Stable**
More solid under foot for added safety; less slippery, even when wet.
- ✓ **Stain & Fade Resistant**
Co-extruded polypropylene outer shell resists everyday spills and normal wear & tear. UV inhibitors provide added colour retention.
- ✓ **Mould & Mildew Resistant**
Resistance to mould & mildew growth; improves aesthetics and safety, with little maintenance.
- ✓ **Moisture & Thermal Resistant**
Excellent moisture and thermal resistance; minimizes problems commonly associated with expansion and contraction.
- ✓ **The Colours You Want**
Available in an array of beautiful colours; allows you to customize your own outdoor living environment.

DuraLife® Outperforms the Competition

A deck board's Modulus of Elasticity (MOE) and Modulus of Rupture (MOR) are good indicators of its ultimate performance and resistance to flex or sagging between joists. The higher the value, the better its performance.

*Data reflects actual DuraLife® Siesta decking test results and an aggregate of other manufacturers' published data.

PVC = Polyvinyl chloride
PE = Polyethylene

PP = DuraLife's Polypropylene

DuraLife®

Brazilian CHERRY

A Classic Finish with Modern Sustainability

Colours for Life

DuraLife® is fade resistant and colour fast meaning you don't have to worry that your beautiful new decking will fade over time, but stay looking as good as the day you installed it.

DuraLife®

Garapa GREY

Luxury Finish Built for Living

More Play. Less Work.

Relax and enjoy your DuraLife® decking the way you want to. Our outer shell resists spills, stains, wear and tear - meaning you can simply wipe and wash clean every time - that way you get more time to sit back in style.

DuraLife®

Golden TEAK

Stylishly Timeless, Natural Beauty.

Live Your Life.

DuraLife® has a scratch resistant surface that can handle the everyday wear and tear - whatever your lifestyle. It's even repairable so you can rest easy and live life the way *you* want.

DuraLife®

Tropical WALNUT

Rich Elegance and Peace of Mind

Relax. We've Got You Covered.

The 25 year warranty provided with every DuraLife® installation means you are covered comprehensively and for the life of the product. Unlike other brands DuraLife® does not degrade over time. We've got you covered.

It's a SNAP!

Double the decks. Double your money.

Cutting deck installation time in half is a snap with Step-Clip™!

The patent pending Step-Clip™ system is easy and fast to install, so you can double your deck installations – and double your money. No spacing, extra measuring, or grabbing for fasteners, and less time bending up and down. Decking installation is a snap – with the Step-Clip system!

- **Faster:** Step-Clip reduces decking installation time by up to 50%.
- **Easier:** Spend less time on your hands and knees during deck board installation compared to traditional methods.
- **Efficient:** Decking can be laid out in advance to ensure that the variegated hardwoods appearance is pleasing to the homeowner. Contractor can special-cut and install boards after all other decking is installed. No need to hold up crew for special cuts to fit around posts, etc.
- **Easy to Replace:** If a deck board should be damaged, Step-Clip makes replacing damaged boards significantly easier to replace.
- **No Special Tools:** Four-board-wide strips interlock along each joist and can be easily installed with a nail gun or hammer.
- **Installation Video:** See just how easy it is by viewing this video on the website

Durable Decking & Railing Systems

It's Your Choice. We Just Make It Easier.

Do it once. Do it right. Do it DuraLife.

fastenator™

The World's Best Hidden Fixing System

Our Fastenator Hidden Fastening System improves the aesthetic appeal of the deck surface and makes it easier to install. Use our unique Starter Board profile (one side grooved, one side square) along the perimeter of the deck and stair treads for a clean & finished look

Saves Time & Effort

Other decking products use time consuming spacer clips that require every screw to be manually applied and fixed. DuraLife Decking saves you time and money with our unique **PRE-LOADED** clip system which means there are no visible screws or nails on your finished deck and ensures you'll never lose a screw between the boards again!

Easiest Install Ever

- Self Space gaps between boards
- No Stringline Required
- Half the fixings of traditional decks
- Unique Pre-Loaded Screw system saves time and money

Which Composite Decking is Right for You?

DuraLife has a decking product to meet your specific design needs.

Whether you're replacing an old deck or building a new one, we have an option to suit. The unique strength of DuraLife allows up to 550mm spans with DuraLife Siesta or up to 450mm spans with our DuraLife MVP decking. All DuraLife products are built from a unique, durable, proven polypropylene and hardwood capped composite that will provide you and your family with years of enjoyment and satisfaction.

Ordinary decking products can stain with every spill and will fade over time, however DuraLife's capped surface is highly resistant to stains, mould, and to colour fade.
