VersaRail[®]

Railing

VersaRail Aluminum Railing

BY **Barrette**
OUTDOOR LIVING[®]

Classic styling, durable finish, and ease of installation make our VersaRail a perfect choice for any application.

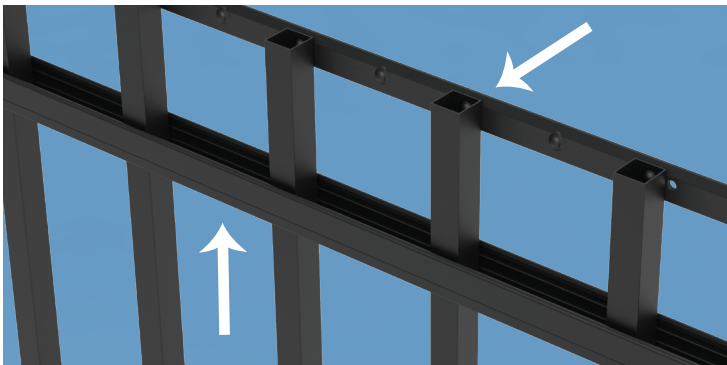

THE VERSARAIL DIFFERENCE

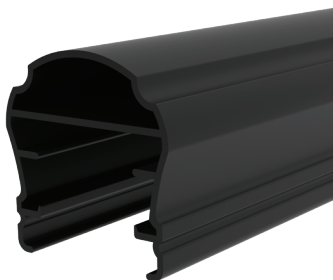

VersaRail deck board adapter fits on top of the top rail creating a flat surface for your DuraLife deck board.

Innovative locking strip uses a patented construction system which locks the balusters & rails together from the inside out. This unique design eliminates the need for screws which can become rusty and loose over time.

Two top rail options allow you to choose the design that fits your style.

Cambridge Style

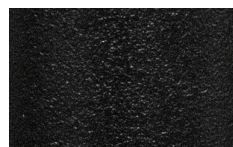

Classic Style
